Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "nothing" free any more than a merchant can lose over his counter from a free gift of goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for no matter in what part of the paper they appear.

The balloon ascension at the Electric Park last evening was a greater success than was expected by the managers and spectators. Promptly at the hour advertised Prof. Charles A. Thompson, the aeronaut, started on his journey in the air, and when far above the tremendous crowd that had gathered, gave a most beautiful pyrotechnic display, something entirely new and never before seen in Mayville. The exhibition will be repeated every evening this week and is worth going out to see.

Electric Park.

Electric Park was thronged with people last night to witness the big balloon ascension, and it can truthfully be said that it was one of the greatest and grandest balloon ascensions that ever took place in or about Mayville. At 8 o'clock the inflation of the big balloon began, and at 8:15 ropes were cut and Prof. Thompson started cloudward, touching off the fireworks as he ascended, which made a very beautiful display. At an elevation of 1,500 feet the Professor cut loose from his balloon and then made his perilous descent to earth again, making in all an ascension worth going miles to see. Go out early tonight, as the ascension takes place at 7:30.

The very little theater was packed and jammed, and the bunch enjoyed a really first-class show. The new people, Will and Ethel MacRobie, made the strongest kind of a hit in their comely abode, "simplicity." Miss MacRobie is a very sweet singer, while Mr. MacRobie is a comedian who has a whole bunch of new sayings and knows how to say them; and then those two old favorites, Lew Secker and Ada Wilkes, are at big favorites as ever. Go out tonight and see the big balloon, then the big vaudeville show and get a ride of four miles all for 10 cents.

Good music and a cool pleasant ride for only 10 cents on the Laurence tonight.

Fremont Park.

Well! did a crowd ever see a better ballroom ascension than Fremont gave last night? Nearly 1,000 people were on the bank to watch it and the young aeronaut, what a daring chap is he! He went up holding by his teeth; he came down after attaining 1,000 feet hanging by his toes. See him tonight at 7 o'clock. As an additional attraction Mammelle Hunter will give a free exhibition at 7:30 on a wire cable 400 feet long high up. You must come out to learn what she does. The stage show is charming, better and funnier than ever. Mitchell and Love are great, the Cowbo's Hotel screamingly funny and the big audience roared with laughter. You are cordially invited to come and see the show of Mayville.

If "American pigs" can destroy two Spanish sels without the loss of a pig of their own, what will become of Spain and the Spaniards when the "American hogs" break loose?

The last issue of The Vanceburg Sun is so hot it fairly sizzles. The LEDGER's exposition of affairs seems to have hit a very tender spot in even the tough outside of the office-grabbing gang.

ATTENTION is invited to a letter from Morehead, which tells of the Hon. GEORGE MORGAN THOMAS'S "deal" whereby the Kentucky Court of Appeals was made Democratic for the benefit of son-in-law Sax.

The total American loss at Santiago—killed, wounded and missing—reached 15,000 men,—had enough to be sure, but a mere bagatelle when compared with the loss of men and ships inflicted upon the Spaniards.

The Vanceburg Sun is respectfully informed that if Congressman PUGH had been man enough to have chosen his appointees for positions without attempting to shirk the responsibility and throw it upon the shoulders of so-called "Advisory Boards," it would not now be necessary for him to "plant" \$250 or \$300 in each of several counties to buy his re-nomination. People admire a man who has backbone; they despise a syphonant.

THE PRICERS' GUIDE.
The Largest Shipment of
River
Chat Ever Came to Northeastern Kentucky
was received Monday, Tuesday and Wednesday, May 10th and 11th, 1898, by JOHN I. WINTER, THE PRICER. There was 30,000,000 (thirty million) feet in the shipment, and every foot of it is the justly famous Deering Pure Sial. Every one wants, demands and will have no other twine after once using Deering Pure Sial. None of us are too old to learn. If your neighbors are using a better article than you are, surely you wish to know it. The demand for Deering Pure Sial Twine has become so great that we were compelled to this year buy 30,000,000 feet to accommodate the wants of our customers. Now, listen: Every inch of Pure Sial Twine is tested at a much higher tension than any other twine in the world; while in other makes of twine only 100 feet out of every 50,000 feet is tested. Deering Pure Sial Twine is made of extra long (first) strands of Pure Sial Fiber, which permits of very fine spinning, thus producing more bundles to the pound than any other twine in the world. To make a long story short, I offer the following: Take out a lot of Deering Pure Sial Twine, try it, and if you don't find that it will bind an acre of wheat with less pounds than any other twine made, if you don't find that it is the strongest twine made, if it is not the best twine that you ever used, you will please return it and every cent of your money will be refunded. Surely, that's fair. You are to be your own judge. Say, I save you big money on twine. I bought my twine some time since when it was selling below the cost of production. Twine has advanced ever since. I am willing to give my friends and customers the advance in other of my judicious purchases. I am selling twine today 1c a pound less than the market price. In buying Binder Twine, Farm Wagons, Farm Implements, Mowers, Hay Rakes, Self Binders or Furniture it always pays to consult The Price Frighter.

DEERING
The Deering is a safe line to hitch to. In buying a Self Binder one should study the matter carefully and select the best machine. Any make of binder will cut wheat; they all do that; but there is one machine that will cut wheat, rye, oats, barley, millet, bluegrass, timothy, etc. Standing up or laying down flat, long or short, heavy or thin, on level, rolling or hillside as steep as a roof. This machine is the Deering. Condition of grain or land makes no difference to this machineless binder. Get your money's worth and

DEERING
Deering Machines have roller and ball bearings, and in that respect they're only machine of the kind made. Its draft is the lightest of any now on the market. Remember, Deering made the first twine binder. Deering first used ball and roller bearings, and today offer you the result of their labor at the same price that other companies wish to charge you for experiments. Don't buy a cheap experiment, but buy a perfected Deering Binder Mower or Hay Rake. They have made all your neighbors happy, at nearly 1,000 testimonials that we hold of residents of Mason, Bracken and Robertson distinctly state. We will be pleased to show you these testimonials. Come and see Deering's wonderful line of prize winning machines.

An Open Confession is Good for the Soul

We oversize the situation. We are loaded with Baby Buggies. They must go—we don't intend to carry them over. When an article don't move fast enough we push it, and push it so hard that it runs away from itself. We never have any carried-over stock. Now listen: These Buggies will be sold regardless of cost. Cost cuts no figure in this case. We want a little bit of your money in exchange for these Baby Buggies, and in order to make the exchange quickly we will

Deafness cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be forever lost; nine cases out of ten are caused, by catarrh, which is nothing but an inflammation of the mucous surface.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
